# COTI

CotiVision™ was founded by Nan and Julie to inspire people to be bold and celebrate their personalities through their eyewear and accessories!

All Coti chains come with trigger clasps and silicone ends that can be used with our Eden Reading Glasses, converted to use with our Necklace Reading Glasses or, simply remove the silicone ends to wear with a mask or convert to a stand alone necklace.

Our Amore Italia chains are hand made in Italy from recycled material and our Eden & Carareading glasses are made from an environmentally friendly material.

Coti chains are packaged in a branded gift box or microfibre pouch.

“We hope you like what we’ve created on our journey so far”
